Expert guidance for developing your Educator Portfolio

Presenter: Sean Elliott, MD
Professor, Department of Pediatrics; former Chair, Academy of Medical Education Scholars

Description: Educational portfolios serve multiple purposes. They may guide your preparation for: 1) promotion and tenure; 2) seeking employment; and 3) identifying gaps in your teaching experience and areas in need of improvement. Dr. Elliott will outline the purpose and importance of creating an educator portfolio. He will describe the categories of activities you should document to develop an educator portfolio, and provide a template so you can begin creating your own. Participants are invited to ask questions and raise issues for discussion.
