Learning Objectives

By the end of the orientation interns will be able to...

- Describe attributes of good teaching and their strengths for teaching
- Identify skills or knowledge they want to learn or improve to contribute to good teaching
- Identify ways to demonstrate professionalism to medical students
- Apply a straightforward approach to teaching in clinical settings
- Make a commitment to engage in behaviors that will contribute to good teaching at UA CoM

Interactive Format

- We will break the larger group of 200 interns into 4 sections.
- Each section will have a team of lead facilitators.
- Facilitators will work with a group of 7-8 interns to promote discussion of a straightforward approach to teaching in clinical settings, the attributes of good teaching and how to demonstrate professionalism.
- Interns will contribute to a Commitment to Teaching to be shared with the entire group.

Facilitator Prep Session

We ask that facilitators attend a prep session (about 30 minutes).
Please Click on the RAE image at left to select a prep session.
