Please join us for this **hands-on workshop!**

Date: October 9, 2013   Time: 9-11 am   Room: MDL-3116

The workshop will introduce you to Poll Everywhere audience resopnse software (ARS) and how to use it in classroom and clinical learning situations.

Device/App Requirements: Participants must bring a laptop to the workshop.

To prepare for the workshop: Please go to Polleverywhere.com and create a FREE account, and bring your laptop or iPad with you.

During the workshop you will learn and practice the following functions:

- Creating polls (open-ended, multiple choice, and the new discourse questions)
- How to use the Windows or Mac presenter app
- How to integrate Poll Everywhere into your PowerPoint or KeyNote or other presentation
- How to display the poll results in various formats, including word clouds
- How to download data and reports
