## **UA CoM Policy on Instructional Development**

- UA College of Medicine *Faculty Instructional Development* policy requires all residents who teach medical students to participate in instructional development activities.
- LCME requires medical schools to provide educator development for residents who teach medical students participating in required clerkships.

Click to view the policy

## **UA CoM Required to Document Compliance**

• LCME requires medical schools to document resident participation in educator training activities.

## Contact Director of Faculty Instructional Development 520.626.1743 kse@medadmin.arizona.edu

As Director of Faculty Instructional Development, Karen Spear-Ellinwood, PhD, JD, creates and conducts educator development activities for faculty, fellows and residents at the University of Arizona College of Medicine addressing both challenges in and strategies for teaching in classroom and clinical settings.
